bariatric wheelchairs)*

LIGHT IN WEIGHT HEAVY IN CAPACITY

Accommodating new EXTRA-WIDE wheelchairs, Detecto's BRW1000 provides everything required for weighing bariatric patients. For extended patient comfort, the BRW1000 can store the weight of the chair, allowing clinical staff to simply roll the patient on the scale for quick and easy weighing. Detecto's BRW1000 provides comfort for the patient and saves valuable time in busy healthcare facilities.

 **DETECTO**
A Division of Cardinal Scale Manufacturing Co.

The BRW1000's integral handles and light weight make it easy to lift and lower into position. Built-in wheels permit the scale to be rolled anywhere it's needed throughout a clinical facility.
