

EXTRA LARGE ARMS BLOOD PRESSURE MONITOR UA-789AC

This monitor is equipped with a high speed motor and is paired with the AccuFit™ Extra Large cuff that fits arms ranging from 16.5" - 23.6" (42 - 60 cm).

The UA-789 is a home blood pressure monitor that accommodates consumers with larger sized arms. Never before offered in home monitoring, A&D introduces the extra large cuff to the retail market. The cuff is coupled with a high speed motor for a fast and comfortable reading.

The UA-789 is also equipped with Irregular Heartbeat Detection, which provides blood pressure and pulse rate measurements even when an Irregular Heartbeat occurs, and HeartWise™ Technology which measures blood pressure on deflation. With an extra large display, large buttons for easy operation and an AC Power Adapter, this monitor offers speed, reliability and convenience to an untapped market segment.

This blood pressure monitor includes:

- High speed motor
- AccuFit™ Extra Large Cuff 16.5" to 23.6" (42-60 cm)
- 60 Memory Recall
- Trilingual instructions and quick start guide (English, French, Spanish)
- Four week blood pressure logbook

UA-789 AccuFit™ Extra Large Arms

To obtain an accurate reading, it is important to use the correct cuff size. A cuff that is too small will result in a higher than expected reading and a cuff that is too large will result in a lower than expected reading. The UA-789 monitor is not compatible with the LifeSource Small blood pressure cuff. **Using a small cuff will give you an inaccurate blood pressure reading.**
