

Detecto Medical Scale Indicators

MODEL 750

MODEL 758C

Detecto Scale Company has the most comprehensive line of medical scale products. The models 758C and 750 weight displays provide you with versatility to meet the demands of each unique weighing application.

The model 750 display features an easy-to-use keypad and extra-large display perfect for patient self-weighing and viewing by the attending nurse or physician. A quick and simple BMI calculator with a scroll feature to input height allows you the ease of BMI calculation when you require it. The durable design and easy-to-replace "AA" batteries makes the 750 perfect for all clinics, hospitals, and physician offices.

From wheelchair-based applications to electronic medical records updating, the 758C is the most versatile clinical scale weight display available. A full numeric keypad allows fast entry of wheelchair weight. For those applications requiring weight, height and BMI percentages simultaneously, the 758C is the right choice. The 758C also includes an EMR-ready RS-232 connection to a PC or printer standard.

750 Indicator

- Extra-large, 0.75 inch high easy-to-read LCD display.
