

The Patient Transfer Scale is a transfer board with a built-in medical scale that provides a weight measurement when transferring a patient. All departments can benefit from the Patient Transfer Scale, particularly Stroke Units, the Emergency Room, ICU, and Radiology.

Advantages

- Designed by a Clinician for Clinicians**
Weighs critical or immobile patients instantly and accurately helping shorten door-to-needle times.
- Easy to Use**
Light and portable with simple functions.
- Ideal Method for Weighing Immobile Patients**
Offers superior alternative to other weighing equipment, such as in-bed scales, that are often not calibrated or inaccurate.
- Designed for Efficiency**
Helps shorten door-to-needle times for time critical patients.
- Effective Functionality**
Can be utilized as part of an existing patient transfer process when a weight is needed, and will not disrupt the patient flow process.

Specifications

- Capacity: 550 lb / 250 kg
- Resolution: 1 lb / 0.5 kg
- Weighing Mat Size (w x d):
71" x 21" / 1805 mm x 533 mm
- Product Footprint (w x d x h):
71" x 27 1/2" x 1" / 1805mm x 700mm x 30 mm
- Product Weight: 25 lb / 11.4 kg
- Display: 3" x 1" / 76 mm x 25 mm Backlight LCD
- Measuring Tape: Height guide shown on mat 100cm – 180cm shown at 5 cm
- Power Source: 3.7V rechargeable battery
- Functions: LB/KG Conversion, Zero, Hold/Release, Auto Off
- 2 year limited warranty
