POSTURE-MATE® G

Immersion By Design

KEY FEATURES:

- Accommodates postural alignment in standard geri-chair styles
- Custom fit for 20" seat width geri-chair models
- Contoured back for centering
- High-specification foam seat for pelvic immersion
- Attached leg support engineered to suspend the heel regions when chair is reclined
- Contoured headrest mounts independently for comfort & alignment
- Removable arm pads protect fragile skin; moldable for custom support
- Non-skid base on seat and leg segment
- Secure straps; maintain seat and headrest in proper position on the chair base
- Velcro seams; easy detachment of system segments, secure seat section to back and arm attachments, facilitate cleaning of all segments

STRETCH COVER DESIGN

Bidirectional stretch cover for optimal accommodation to body contours.

Impervious to fluids but breathable for microclimate temperature control.

Wipes clean with mild soap and water or EPA approved disinfectant.
