

POSTURE-MATE® WC

Immersion By Design

A unique ergonomically designed support system for the standard model wheelchair

Provides postural alignment, comfort and pressure redistribution

Velcro Secure Strap System

Indications for use:

leaning, slumping, sliding or general discomfort when confined to the wheelchair

Velcro calf guard strap system for support and access to foot-rest functions

POSTURE-MATE® WC

Immersion By Design

KEY FEATURES:

- Accommodates postural alignment in sling-seat wheelchair styles
- Custom fit to individual wheelchair widths; 16", 18", 20"
- Lumbar support for spinal alignment
- High-specification flexible foam for pelvic immersion
- Structured seat base designed for hip and thigh support
- Removable calf guard engineered to allow access to foot-rest functions
- **Optional** Full arm covers to protect fragile skin
- Secure straps; maintain back, seat and calf segments in proper position on the wheelchair base
- Velcro seams; easy detachment of system segments, secure seat section to back and calf guard, facilitate cleaning of all segments

STRETCH COVER DESIGN

Bidirectional stretch cover for optimal accommodation to body contours.

Impervious to fluids but breathable for microclimate temperature control.

Wipes clean with mild soap and water or EPA approved disinfectant.
