BD-585

Digital Baby Scale

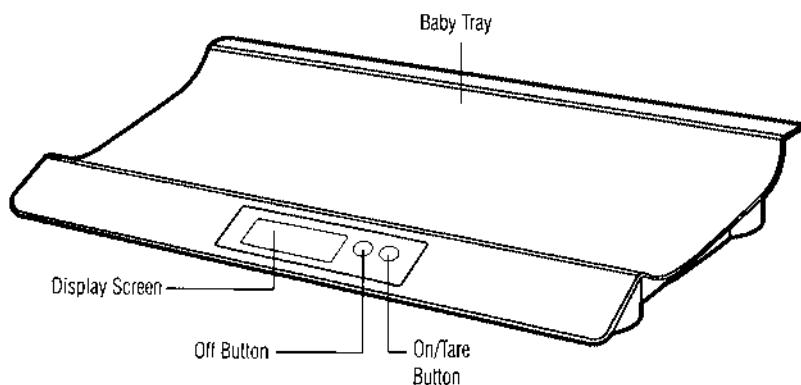

Báscula (Pesa) Digital para Bebés

Instruction Manual

Manual de Instrucciones

Components and Features

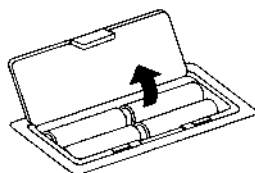

Preparations Before Use

Set scale to measure in pounds or kilograms; use the switch located on the bottom of the scale.

Inserting the Batteries

Locate the battery cover on the bottom of the scale. Press the tab to release the cover. Insert 4 AA alkaline batteries as indicated.

Note: When you insert the battery, make sure that the negative end touches flat to the spring.

Note: For best results, use alkaline batteries. Do not mix alkaline and manganese batteries together. Avoid using rechargeable batteries.

Important Notes

- Do not get the scale wet or store in a humid place.
- The scale is a precision instrument—do not drop it, jump on or drop heavy objects onto it.
- Do not dismantle or adjust the scale.
- When pressing the On/Tare button, do not hold it down. This will cause the "Err" (error) message to appear on the display.

Taking Weight Measurement

ON/TARE

Turn on the power by pressing the On/Tare button.
(The display will flash all items.)

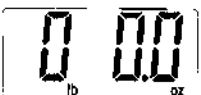

"88888" will appear on the display.

Wait for the display to read "0 0.0" and place the baby on the scale (within 60 seconds).

Display will show weight.

After taking the baby away from the tray and after a few seconds, the display will return to "0 0.0" and turn off automatically.

Tare Function

The Tare function allows you to weigh the baby with another item (i.e. towel or blanket) without skewing the actual weight of the baby.

Turn on scale.

Place item (i.e. towel or blanket) on the baby tray.

Press the On/Tare button to reset scale to "0 0.0".

Place baby on the scale.

Note: When the total weight of item and baby's weight exceeds 40 lb or 20 kg, the display shows "OL" (overload).

Replacing Batteries

If "Lo" appears on the display, batteries are running down and need to be replaced. If nothing appears on the display the batteries are dead and need to be replaced.

Specifications

Weight Capacity

40 lb/20 kg

Weight Graduation

0.5 oz (0-40 lb)

10 g (0-20 kg)

Power Supply

4 x AA batteries (included)

Display

1"/26 mm

Color

Pure White

UPC No.

742496-858504

Detalles Técnicos
